The GIS Research and Map Collection (GRMC) workspace is an innovative, collaborative, and interactive learning and teaching environment dedicated to serving the educational advancement of the students of Ball State University.

Guidelines for the GIS Research and Map Collection workspace in BL 224

1. The GRMC BL 224 workspace is intended for groups, events, and meetings that make use of advanced technology. Activities that do not require this technology should be scheduled in other areas.

2. Reservation must be made at least two hours in advance of meeting time.

3. This space may not be reserved for re-occurring events spanning across an entire semester or serve as a substitute for a regular classroom.

4. The person reserving the space must be faculty or staff member with Ball State University, must be present during the scheduled event, and is responsible to ensure the room is neat and orderly at the end of the session.

5. Faculty and staff who require training to operate equipment must schedule a training session by calling Library Data and Discovery Solutions, 765-285-8032, during regular business hours.

6. Report problems with equipment to the GRMC Circulation Desk.

7. No food or beverages, bottled water is allowed.

8. Users of the space must comply with the Non-Commercial Expressive Activity and Assembly on University Property policy and the Commercial Activity on University Property policy.

9. For assistance with room reservations, contact the Library Dean's Office at 765-285-5277.
